SUMMARY

Backend engineer with 5 years of experience building and running high-traffic services in Java and Python. Owns services end to end, from design to on-call, and mentors junior developers.

EXPERIENCE

Software Engineer II Apr 2023 to Present

Cargoline Logistics Tech, Pune

- Own 3 production services handling several million requests a day
- Moved the order service to an event-driven design, making deployments safer and cutting failed orders sharply
- Introduced contract tests and better monitoring; production incidents fell noticeably within two quarters
- Mentor 2 junior developers and run the weekly code review session

Software Engineer Jul 2021 to Mar 2023

Finbridge Systems, Pune

- Built REST APIs in Spring Boot for a lending platform
- Optimised slow SQL queries, reducing p95 latency of key endpoints

EDUCATION

B.E., Information Technology 2021

Pune Institute of Computer Technology, Pune, CGPA 8.1
